They are aware of the cleanup of their yards and it will be this summer. Once were mobilized in the neighborhood will have a one on one with each homeowner to schedule the work, discuss what will take place, and document site conditions.

Thanks for thinking of me. Could I see the draft release please?

These are residential yard cleanups, so the owners/residents already know our plans/timing?

Brad,
Can you talk to Ronna and see if congressionals and alderwoman want to be briefed on this. We should probably reach out to them before the press release goes out.

Subject: Draft Press Release for SH Bell Manganese Removal Cleanup

Hi Brad and Heriberto,

Attached is a draft press release to announce the start of the manganese cleanup at the SH Bell site. Please let me know if you have any edits. I'd like to get this out when work begins (I believe that is the week of July 8?).

Thanks,
Rachel
